EXPERIENCE

•Deloitte USI

Jan - current

Responsibilities

DC Analyst

- Designed and deployed scalable, fault-tolerant data pipelines using Oracle Integration Cloud and Python.
- Developed advanced data visualizations and dashboards in Power BI/Tableau for cross-functional business teams.
- Automated SQL/PLSQL scripts, reducing data processing time by 35%.
- Delivered client workshops and internal knowledge transfer sessions, enhancing team productivity.

•ExcelSoft Technologies

Feb 2023 - July 2023

Responsibilities

R&D Intern

- Performed lexical analysis and NLP on regional Indian languages using Python and custom tokenizers.
- Compiled a comprehensive dataset for under-resourced languages, enhancing model accuracy by 20%.
- Presented research outcomes to senior stakeholders and published findings in internal whitepapers.

•Tech4Fuels

Apr 2021 - Feb 2022

Responsibilities

Internship

- Engineered a carbon capture system using zeolite-integrated IoT sensors, cutting emissions by 18%.
- Built real-time dashboards to monitor energy efficiency, facilitating strategic decisions.
- Contributed to technical reports and presented findings to environmental regulators.

EDUCATION

•Bachelor of Engineering in Electronics and Communication

2019-23

The National Institute of Engineering, Mysuru

CGPA: 8.85

•Secondary Education (Science stream: PCMB)

2017-2019

Sharada Vidya Mandir, Mysuru

Percentage: 97.1%

•Primary Education

2007-2017

St Joesph's Central School, Mysuru

CGPA: 10.0

ACHIEVEMENTS

•IEI Engineering Award

Recognized by the Chief Minister of Karnataka for a sustainable water pollution mitigation project.

•Unstop Global Engineering rank: 14

A series of competitions conducted annually on Unstop

- Won national-level project demo, business plan, poster presentations, and multiple STEM hackathons.
- Implemented real-world tech solutions for climate, education, and smart city challenges.

•KCET rank: 2282

Competitive state entrance test with over 5 lakh applicants annually.

TECHNICAL SKILLS AND INTERESTS

Languages: Python, C, Verilog

Tools: Anaconda, SQLDeveloper, Visual Studio Code, JIRA, LaTeXOverleaf, Microsoft Office (Power BI, Word, PowerPoint, Excel, Visio)

Relevant Coursework: Deloitte Analyst Certification, Data Structures, Digital Logic, Data Visualization, Cloud Integration, NPTEL Python, Google Technical Fundamentals, Mathematics Foundation, Science Foundation

Soft Skills: Problem-Solving, Time management, Presentation, Adaptability

POSITIONS OF RESPONSIBILITY

•IEEE: Student Activity Coordinator

Sep 2021 - Nov 2022

- Conducted 10+ technical workshops and STEM outreach events with hands-on electronic kits for students.
